March 22, 2023

Toronto-East York Community Council
Subcommittee on Metrolinx's Ontario Line Construction

Alternative Design to the Ogoode *Ontario Line* Station

Agenda Item TM 1.2

Update on Metrolinx's Ontario Line Construction within the Toronto and East York District

Dear TEYCC,

FoSTRA, a federation of 23 residents' associations in south Toronto, supports the March 20th initiative being submitted by B.O.L.D. to have an alternative Osgoode station design considered without delay.

We believe that this design, which would significantly mediate the impact on the Osgoode Gardens, satisfies the station's accessibility requirements without compromising commuter flow.

With that in mind, FoSTRA asks the TEYCC support this design review.

Best regards,

Rick Green

Chair
